

## Here's what a few of our clients say about The O'Shea Report

"This was by far one of the funniest experiences I have had at any event. As a franchisee, it was clear that The O'Sheas really understood what it is like for us in the field. I laughed until I fell out of my chair. What really impressed me was how they incorporated practical learning tips into their content. In between laughing till my sides ached, I was able to see some real opportunities to manage change in a whole new way. Who knew learning could be so much fun! I recommend that we have these two back at every annual event. I'd come just to see them!"

"Thank you for your excellent and uniformly well-received presentation of 'The O'Shea Report-Change 180' at our Annual Meeting. Even now, a week later, we continue to receive many favorable comments about your presentation, and not simply about the humor that permeates it, but also about the important message that underlies it. By looking at the ever present phenomenon of change through the lens of humor, we all gain better perspective about how to better deal with it and not overreact. Your message was particularly well suited for our audience and times, and was a most welcome and appropriate addition to our Annual Meeting. We found it worked well for us and our members. Again we thank you for a superb job."

"Tim and Kris were the perfect addition to our Quarterly Meeting in Charlotte. I had many employees tell me that the O'Shea Report Change 180 theme was good-natured humor with a message especially appropriate for the changes we are all facing due to the recent economic conditions. The skits were even funnier because of the kernel of truth underlying each one, leaving us with lots of whispered conversations saying, 'That reminds me of when...!' There's nothing healthier for an organization than to laugh together. Thanks Tim and Kris!!!"
