

Gina Schreck Testimonials

"We couldn't have been more pleased with Gina's presentation! She was a huge asset to our conference and the subject of her presentation was so relevant and very much a breath of fresh air. We received the best compliments from our franchisees about Gina and are thrilled be working with her on other marketing projects."

Maggie Barns, CEO, Co-Founder, Wine & Design

"Gina has spoken at 4 of our events, addressing the funeral home owners and directors on social marketing. She has been a favorite and actually we get requests to have her back each year of our conferences. She doesn't just talk theory, she and her team manage the social marketing for 32 of these clients so she knows their business and how to grow it. She's great!"

Marilyn Gould, President MKJ Marketing

"Gina is the best at making the complicated, simple. We got such rave reviews from the 17 events we hired her for in 2014, that we have her on our schedule again in 2015 for even more of our Real Estate Connection business building events. Gina is an entertaining speaker and knows her stuff."

Suzy Boone, Marketing Director, JP Morgan Chase

Gina is absolutely one-of-a-kind AMAZING! She was great to work with from beginning to end. We hired Gina for the same presentation 3 weeks in a row. Week after week she was professional, punctual, entertaining, and educational. Gina is refreshingly different and extremely easy to work with. Just can't say enough about what a success Gina was for our meetings!!!

I had the very good fortune to have hired and worked with Gina on our organization's 2008, 2011 & 2013 North American Leadership Institute Meetings where she was a featured speaker to over 2,000 professionals. She is a favorite and we continue to get requests to have her back.

Gil Marder, Educational Programs Specialist at Project Management Institute

Gina's presentation was the highlight of the conference - energized and practical with real world applications and solid suggestions for improvement.

Gina hit a grand slam with her Keynote presentation at the National Association of Professional Organizer's National Conference. Entertaining, vast knowledge, interesting, content rich, dynamic, energetic, and delightful are all words we can use to describe Gina - but the proof is over 1,000 individuals ALL loved Gina. Her enthusiasm and energy clearly has moved our profession forward! Thanks Gina!

I attended the keynote from Gina about using technology and social media and it was definitely one of the best keynotes I have attended. I am super impressed by the way she explained everything in such a simple and captivating manner. Our audiences loved her. I am already getting requests to have her back next year.
Awais Mirza, Project Manager-Program and Education Coordinator – Symphony Health Solutions

I heard Gina speak at one of our regional meetings about social media and marketing to a new generation. It was the first time I had heard someone make all this technology talk understandable and actionable. A few of our local franchise teams hired Gina's team to manage our social marketing and I recommended her to speak to a business owners group I belong to where she wow'd them as well. Thank you for all you have taught our team!

We have had Gina speak at 22 of our events over the past 2 years and every time I get rave reviews about her talks. She delivers practical information our mortgage bankers and all of the realtors can use, but during her presentations, they are laughing and having fun as they learn. Gina is high energy and fun to listen to...even 22 times!
