

## Laura Stack Testimonials

“Thank you! The content was terrific. As the SVP of Field Operations, I’m responsible for the sales and profitability results for our 75 franchises. What I enjoyed most about your presentation was that it was not only engaging, but also practical in application. I’ve read everything from Covey’s system to “Getting Things Done,” and you presented time management in a way that is the easiest I’ve seen to digest and apply. Thank you for helping our system today!”
