

## Connie Podesta Testimonials

*"You know that you have nailed it with your keynote message when attendees continue to refer to the content long after the event is over. Attendees appreciated the self-reflection components as well as the interactivity and spontaneous humor. Connie's content was relevant to our group and I don't think we could have made a better choice for our keynote this year!"*

*"Connie Podesta was a '20' out of '10' as our recent keynote speaker for the annual meeting. Our team is still raving about her session and quoting portions of her presentation to each other. You can't ask for more than that from an investment in a truly great presenter. Comments from our team included, "best speaker we have had yet", "added a lot of levity to a very complicated business we are in", and "wonderfully humorous delivery and clear message on how to build great customer relationships." One of the things that impressed me the most was the how Connie grasped our company and our culture so completely. In a 15 minute brief just prior to her session, we gave Connie some additional key points about our business and message. 15 minutes later, she seamlessly wove each of these points into her presentation and she absolutely made it feel like she was one of us!"*
