

Jason Hewlett – AV/Room Requirements

Audio:

- * Wireless Handheld SHURE SM58 on adjustable Boom Stand
- * Stereo DI for iPod, downstage center
- * Mini to 2-Quarter/Audio input (artist provides iPod holder which clips to mic stand and runs his own cues)
- * 1 professional sound wedge – more music, less voice, not same mix as house
- * Front of House must be high end (no Eons on sticks)

TIPS:

- * Engineer please do not add in effects, delay or reverb
- * Understanding the words is priority over music throughout the presentation

Video:

- * IMAG: Image magnification must be provided. Ideal placement should be to either side of stage without obstruction
- * Projection should have switch to PowerPoint/Keynote
- * Speaker will provide own Laptop and clicker advance, must have laptop in presenter mode on stage at his side during presentation
- * Music, Video, Slides all coming from Speaker's laptop
- * Per contract, Recording will be given to Speaker following presentation either on SD card for quick upload, or via hard drive

TIPS:

- * Image should focus from Speaker's hips to head throughout presentation. Do not attempt to tighten shot until Speaker advises, where he will remain still as comedy requires. Upon his completion of tight-shot focused comedy, Speaker will move and camera needs to zoom back out to hips to head shot.

Lighting:

- * Professional Stage Lighting required – especially for IMAG enhancement
- * Light must focus on speaker AND stay off of any projection. Basic bright amber wash sufficient.

Staging:

- * Risers appropriate to audience need, recommend minimum of 12'X16' at 1.5' height
- * High-Boy skirted on stage at Speaker's side, where laptop and props will remain throughout presentation. Please no other client use of this table.
- * Recommended Audience Seating: Theater style, classroom seating, or round tables. Speaker cannot present in the round or in casual cocktail, standing room only setting. This is a sit and watch presentation.

******NOTE: A PRE-EVENT CALL with the event producer and/or AV team is required. An AV Rider is provided as a signed checklist.**
