  - -HDMI cable run to the lectern (NOT VGA)
  - -Peter will ALWAYS use his own laptop- please ensure technicians understand this
    is not negotiable as he will interact with his own screen
- ·No PC audio required
- ·Presentation slides are designed in 16:9 format
- ·Peter will provide production team with a backup, presentation at time of the A/V check;
  backup may be used in case of equipment failure

·Peter does not supply his presentations before event
·Peter will provide a PDF copy of presentation for distribution to all attendees, post-event.

Preferences:

·100% house light to be used during the entire presentation duration
·Where controllable, have the audience as close to the stage as possible.
·What on podium or high table

Room Layout:

·Round or square tables cabaret style is preferred.
·Theatre style when audience too big to be at tables.
·Avoid classroom and U-Shape layouts where possible.

* Please note preferences will depend on the nature of the event, audience size and room layout. These suggestions are made in an attempt to maximize the success of your event.
