

Damon Dunn A/V Requirements

Audio

- Wireless lavalier (clip-on) microphone – preferred for mobility

Visual

- I just need to play my introduction Video
<https://vimeo.com/1087296480/64e5c659d9>

Lighting

- Stage lighting – even and bright enough to ensure visibility for photos/video
- No spotlight or washout that prevents seeing the audience

Stage Setup

- Raised stage or riser – for visibility in larger rooms
- Clear space to move around (no podium preferred)

Additional Needs

- Water bottle or glass of water on stage
- Tech rehearsal or A/V check – at least 30 minutes before the session
- Onsite A/V contact available during setup and presentation
