

## BEN WHITING BIO

Ben Whiting achieved international success as an award-winning magician and mind-reader by creating an atmosphere on stage where the impossible was possible and where human connection had no limits. As an entertainer, he's performed in over 30 countries, had multiple television appearances, and his clients include the likes of Crystal Cruises, Oprah's HARPO studios, and Facebook.

Recognizing his passion for helping others in their careers and day-to-day lives, Ben began focusing on keynote speaking and leadership development in 2014. Shortly after delivering his first TEDx talk, he was hired by an international leadership development firm to create and deliver content around the globe. His consulting clients have included international companies like UNiDAYS, as well as Fortune 50 corporations such as Schlumberger.

Today, Ben combines his backgrounds in leadership development and corporate entertainment to help organizations create cultures that can achieve the impossible (while having A LOT of fun). He's been featured in Entrepreneur Magazine, the New York Times, and his clients include Apple, Google, American Express, and Amazon.
