

## Simon T. Bailey Testimonials

“Simon Bailey is the BEST keynote speaker we’ve ever had! He was the highlight of the convention and our franchisees loved him. His presentation was incredibly customized to Goddard. We love the fact that he took the time to visit an additional school the week before the event. In addition, Simon attended other presentations and seamlessly wrapped key takeaways from those sessions into his own presentation – that was fantastic and much appreciated. On site, he was super easy to work with and really put our mind at ease. I would highly recommend Simon Bailey for any franchise event and there wasn’t a single thing I’d change about his presentation or our experience of working with him.”

### On the next visit to Goddard...

“Simon Bailey is truly amazing and every group we have used him for has loved him! I think one of his best qualities is that he’s quickly able to learn a company’s culture and apply that to key points in his message to make his overall presentation very relevant to the audience.”

“Simon Bailey began his session at the doors of our meeting room, shaking hands and greeting our franchisees as they filed in—and he left to a standing ovation, then tears, hugs and laughter as the line formed to thank him on the way out. His reviews are absolutely glowing and he was a dream to work with. He took the extra step to ask for and then personalize his presentation with inspirational stories provided by our team, bringing them to life in a beautiful, heart-felt way. It’s obvious he’s authentic and cares greatly for people.

Thank you, thank you, thank you for putting us together with Simon! Everyone wants him back!”
